There are different packages available which you may come across while researching Invisalign® clear aligner treatment. These packages are based around the amount of movement of your teeth and how many aligners are required to achieve this movement. At your initial consultation appointment, we will assess your teeth and take dental records to submit to Invisalign®. Your prescribed Invisalign® treatment plan is determined and then returned to us. **Invisalign® packages are never selected based on price but rather on the movement required to achieve your desired outcome.** Below is a summary of the various Invisalign® packages that may be available to you.
